**FOR IMMEDIATE RELEASE**

**Moore Industries Honored With Manufacturing Leadership Award**

NORTH HILLS, CALIF. –Moore Industries-International, Inc. received the Manufacturing Leadership Award from the *San Fernando Valley Business Journal* at a ceremony on March 16 at the Warner Center Marriott Hotel in Woodland Hills, Calif. The recognition highlights Moore Industries' place as one of the most innovative manufacturing companies in the region.

Moore Industries was founded in 1968 by Leonard W. Moore, who remains with the company as its CEO. Being an independent, privately-held company allows it to be more agile and flexible in its manufacturing and product development.

Moore Industries was picked for the award by an advisory committee of experts selected by the *San Fernando Valley Business Journal* for their knowledge of the local manufacturing industry. The committee reviewed various criteria before choosing Moore Industries, including its market dominance, creativity in doing business, financial success, number of employees and length of time in the area.

“This award belongs to each and every employee at Moore Industries for their efforts and dedication in keeping the company competitive as one of the leaders in the industry despite the enormous changes in the manufacturing arena throughout the years,” said Albert Badgen, the company’s Director of Manufacturing. “We have gained the respect of professionals in a variety of industries who trust our products to keep their manufacturing processes running smoothly. Winning this award reflects the reputation that Moore Industries has gained through more than 40 years of creating the highest quality instrumentation for process control.”

Along with winning the award, Moore Industries also received special recognition from the California State Legislature. Assemblyman Bob Blumenfield of Woodland Hills presented the company with a certificate honoring Moore Industries as one of the top manufacturing companies in the San Fernando Valley and greater Los Angeles communities.
