

Temperature Transmitters and Assemblies

T5: Total Sensor Diagnostics Cuts Time and Cost

Problem: We are wasting hundreds of man hours each year on maintenance issues with our temperature sensors. There must be a better way.

Solution: Moore Industries SPT Site-Programmable Transmitter with patented Total Sensor Diagnostics takes the guesswork out of identifying and locating sensor problems. Plain-English error messages guide you directly to the source of failure. All of our other transmitters offer similar capabilities.

Total Sensor Diagnostics Locates and Displays Sensor Problems
