

the WORM – Field Cuttable Temperature Sensor

- **Universal stocked sensor** for any thermowell length
- Types of Sensors: Platinum, Copper, Nickel RTDs or T/C.
- Smaller sensing area provides **13% faster response time**
- Smaller mass and propriety potting offers **better resilience to high vibration**
- The short 1.5” sheath, **minimizes ambient temperatures effects**
- Single WORM kits; Triple WORM kit
- Can of 10 WORM kits
