Moore Industries is Voted Best in Products AND Customer Service

#1 in Signal Interface
8 YEARS in a row!

When asked, "What products work best in your applications?", CONTROL magazine's readers once again gave Moore Industries the highest ratings among process instrumentation suppliers for both products **AND** customer service

The end users' bottom line... look to Moore Industries interface solutions for performance, reliability, cost versus benefit, ease-of-use, and **the best service in the industry.**

"We've succeeded in providing the winning combination of technically advanced products and first-class service that all instrument users want and deserve."

—Leonard Moore, President and CEO

#2 in Temperature Transmitters
Highest Rated Customer Service!

Capturing the Number 2 spot against some **BIG** competition lets us know we're moving in the right direction. Mix our excellent products with the highest rated customer service around and you'll get unrivaled temperature monitoring solutions that fit your applications perfectly.
