## UKCA (UK Conformity Assessed) Marking

It is our mission to continually and systematically improve our products, manufacturing, and business practices to assure the safety of our employees, the public, and the environment. As such, we are constantly monitoring the various worldwide regulations and directives that apply to our business, and we comply where required by law and by our own sense of social responsibility.

In November of 2022 the UK Government extended the deadline for UKCA compliance until December 31<sup>st</sup>, 2024. Until that time, products that have European approvals and markings will continue to be accepted within the UK markets. We are continuing to assess our products to ensure their conformity to the UKCA requirements and expect to have the required UKCA declaration of conformities issued and the UKCA marking applied by the revised deadline.
